BUILDING SCHEME

From Earth to Sky

The design of Miami Tropic flows from the ground up, inspired by the natural evolution of a tropical landscape as it reaches higher and higher into the atmosphere.

Miami-based CLAD landscape architects and renowned design studio Yabu Pushelberg collaborated on a cohesive vision for Miami Tropic that imagines a residence informed by a lively and lush tropical environment. The lower floors are grounded with deep earth tones informed by the forest floor, while the color palettes and plants lighten and awaken as the building ascends to an otherworldly rooftop inspired by the forest canopy.

It's rare to encounter microclimates, a grove of trees, and secret gardens in a tower 49 stories high — but not here. Organic, natural materials and sustainable practices bring this unique vision to life in a residence that feels utterly transportive, a testament to the delicate balance between reality and dreams.

Continual Terraces

The terrace overhangs have a sustainable purpose, protecting the building from sun and lowering its energy use

AT HOME

Residences

Focusing on light, openness, and spatial design, Yabu Pushelberg's interior design reflects Miami's unique ability to cultivate spaces that are both tranquil and lively.

In the midst of a busy urban center, the interiors of the residences at Miami Tropic offer a place of escapism. Tranquility. A sense of luxurious retreat. The residences, which begin on the 9th floor, are informed by the tropical sky, with wide, floor-to-ceiling windows that let natural light dapple through each room. "Miami residents are sophisticated yet fun and spontaneous," said the designers. "Our design infuses commissioned art, embraces deep luxuries, and plays with color and materials. We aimed to evolve the idea of what a residence in Miami can mean. Luxury, often associated with stiffness and grandeur, doesn't have to be separate from joy and playfulness."

Above the Treeline

Select residences overlook the Miami cityscape and into the Florida Everglades beyond.

Blue Views

Here, sky melts into sea. A view from a residence with a terrace facing Biscayne Bay, just moments away from Miami Tropic.

Indoor-Outdoor Harmony

Continuous balconies allow for a flow from indoors to out from nearly every living space.

A KITCHEN VETTED BY JEAN-GEORGES

Jean-Georges worked hand-in-hand with Yabu Pushelberg to refine the kitchen layout design, appliance and fixture selections, storage solutions, and island configuration. The space was intentionally crafted to be both functional and compelling. The islands received special focus, serving as a culinary and entertaining center stage.

A Tropical Entry

Leafy ferns and palm plants line the entrance to Miami Tropic, setting the tone for what awaits inside.

LEVEL 1

Ground Floor

The landscape architecture designed by CLAD for Miami Tropic goes far beyond what typical residential greenery entails, nearly recreating a tropical rainforest on a concrete city block. It begins at the moment of arrival at the building's dual entrances, where feathery ferns and glossy palms line the staircase, like winding through the forest floor.

Lobby

Residents pass by a babbling water feature as they make their way to the lobby, where they're greeted by a 24-hour concierge & valet and can check mail and receive packages from secure storage. The lobby leads to private or semi-private elevator vestibules for all residences, setting an environment that balances the seclusion of home with the energy of community.

Office Hours

The co-working area includes a much-needed feature: a coffee bar.

Lounge

A beautiful interior courtyard and Sculpture Garden leads to a residents' lounge, fostering a natural connection between sunlit communal spaces. Varied seating areas in plush, luxe fabrics invite residents to stop by with a magazine, or gather with friends and stay awhile. Wispy grasses and lush greenwalls make it too easy to forget you're in fact, indoors.

Yabu Pushelberg

The transportive interior design of Miami Tropic is the masterful vision of an international studio with a simple mission: It's all about designing the world we want to live in.

George Yabu and Glenn Pushelberg formed one of the world's most influential design studios in 1980. Their goal: to create immersive environments and compelling destinations. Here at Miami Tropic, the interiors capture the essence of their setting in a vibrant palette that includes verdant greens and shimmering blues.

Tactile fabrics and cool natural stone promote a sense of calm throughout each residence, with the occasional bold, playful flourish in homage to the dynamism of the Design District. Their singular vision and unceasing commitment to detail is manifested in every room. These are residences to savor from morning coffee at the breakfast bar to a soothing night cap on the terrace followed by deep, restorative sleep.

The distinctive layering of the building creates unique sightlines and open perspectives for each residence. Moving from inside to out, the far-reaching views over city and water are framed by cool white pillars and lush landscaping, forming strong connections between the building and the people who live there. This is a residence like no other in Miami; a home of character, a place to belong.

The London Edition

The design studio combined the refined English manor touches with their love of natural materials to create a futuristic slickness in this historic hotel.

“There was this raw excitement that drew us into Miami,” said the designers. “Our design for Miami Tropic speaks to joy, play, sophistication, and serenity, blending these elements seamlessly to create a unique residential experience.” Their recent projects include a fifth EDITION hotel, resort projects across Southeast Asia, Japan, and Mexico, and a collaboration with Bruno Mars on The Pinky Ring, a cocktail lounge and jazz bar at the Bellagio Las Vegas.

ARCHITECT

Arquitectonica

At Miami Tropic, you never feel “cooped up inside,” said Fort-Brescia, “we’re creating indoor-outdoor living, like life in the tropics.”
